

## EX-RULERS OF GERMANY AND AUSTRIA FACING TRIALS

Hanoverians demands an independent government for Hanover.

THIS HAGUE, Nov. 29.—Soldiers' councils on all fronts have been notified to send delegates to a special meeting at Baden Dec. 1, to discuss participation in plans for reorganizing the German Government.

Premier Clemenceau and Premier Lloyd George will meet here Sunday to discuss the procedure for demanding that Holland turn the former Kaiser over to the Allies, the Express declared today.

France and Great Britain are understood to have agreed that such a demand be made, and the Dutch Government is said to be ready to comply.

The Express said Marshal Foch and Col. House may attend the conference.

AMSTERDAM, Nov. 29.—It is understood that Count William Hohenlohe soon will leave Amerongen Castle to undergo treatment for his shattered nerves, in a sanatorium near Arnhem. He probably will live for some weeks at the home of Dr. Lingbeek at Rinkum.

The former Kaiser is reported to be subject to frequent attacks of violent weeping. Some days he is unable to write, owing to spells of trembling.

In well-informed circles at The Hague it is expected that the Allies soon will join in inducing Holland to expel Wilhelm, offering him the choice of returning to the German frontier or surrendering to the Entente.

Wilhelm seldom goes outside the castle gardens. During one of his first walks he met an interned German soldier, who refused to salute. The former Kaiser demanded an explanation. The soldier silently produced a small red flag. An attendant asked him if he realized it was the Kaiser who stood before him.

"Damn the Hohenzollerns! Six of my brothers died for them!" shouted the soldier.

Since then the former Kaiser has taken no walks, always riding in a closed automobile on his infrequent trips away from the castle.

WASHINGTON, Nov. 29.—The United States probably will not join with the Entente in its reported plan to ask Holland to surrender the Kaiser, according to indications at the State Department today.

The Department has been asked several times for a statement as to the American position on this subject and each time has professed ignorance of the whole subject. This is taken to mean that the Government is giving no attention to this matter.

For the Kaiser's returning to Germany, the Department holds that he would be worth nothing should he attempt it.

## FORMER EMPEROR CHARLES OF AUSTRIA REPORTED SUFFERING FROM DEPRESSION

New Government Wishes to Try Him and Generals for War Crimes.

AMSTERDAM, Nov. 29.—Former Emperor Charles of Austria is suffering from a mental depression, according to an Innsbruck despatch to the Kevale Zeitung of Berlin. He sits for hours at his desk, staring vacantly. Former Empress Zita is much distressed by her husband's state of health.

COPENHAGEN, Nov. 29.—The Austrian Government has ordered

## GERMAN ADMIRAL BALKS AT HAULING DOWN FLAGS ON SURRENDERED SHIPS

LONDON, Thursday, Nov. 28.—Admiral Von Reuter, Commander of the German fleet which surrendered to the Allies Nov. 21, has protested against the order of Admiral Sir David Beatty, of the British fleet, directing that the German flag be hauled down. He points out, according to an admiralty statement, that the terms of the armistice, equivalent to internment in a neutral port, where, in accordance with precedent, flags are allowed to remain hoisted. He adds:

"I esteem it unjustifiable and contrary to international custom to order the striking of the flag on German ships. Moreover, in my opinion, the order to strike the flag was not in keeping with the idea of chivalry between two honorable opponents."

Admiral Beatty, calling attention to the fact that the armistice merely suspended hostilities and that a state of war still exists between Germany and the Allies, replied:

"Under the circumstances, no enemy vessel can be permitted to fly its national ensign in British ports while under custody."

## 2,000 U. S. WAR PRISONERS TO SAIL FROM ROTTERDAM

Will Be Taken to France Before Being Sent Back to America.

TOURS, Monday, Nov. 25.—An American liner will sail from a French port in a few days for Rotterdam, where it will take on board 2,000 American officers and 2,000 men who have been prisoners of war in Germany. They will be brought to France before being taken to America.

The head of the Supply Service of the American Expeditionary Force has directed that sufficient nations and clothing be taken to Rotterdam, and that the Commissary Department provide tobacco, canned goods, playing cards, toilet articles, soap and towels for issue to the released prisoners.

A notable detail in the personnel will be a brass band, so when the ship sails into Rotterdam the Americans waiting there will hear the "Star Spangled Banner" played on the vessel sent to take them away to freedom.

## FOUND SLAIN NEAR HOME.

Police Believe Body of Long Island City Man Was Taken There.

The body of Stephen Tanerello, thirty-nine, of No. 24 Marion Street, Long Island City, with a gun-shot wound in the right side, was found lying in an open lot near his home early today.

He left his home yesterday afternoon to visit friends, but in spite of the fact that the body was found so near his home, the police believe that he was killed some distance away and taken back to the spot.

Tanerello was employed as a driver, was married and had eight children.

Police Here Ask Probe of Charges of Forgery.

Demand has been made by the Polish National Defense Committee that the United States send a special commission to Poland to investigate existing conditions and report its findings. The special commission is to have Jewish and Polish membership.

A representative diet in influence. Nostik's Mailed Milk very desirable. Advt.

## OPINION IN BRITAIN WIDELY DIVIDED ON FREEDOM OF SEAS

Leaders Express Ideas on Problem to Come Before Peace Conference.

(Copyright, 1918, by The United Press.) LONDON, Nov. 29.—Definition of the phrase "Freedom of the Seas" is the most important problem before the world to-day. In its relation to the League of Nations it forms the basis for the chief point to be settled by the forthcoming world peace conference.

Responding to a request for their opinions on this problem, leaders of British thought today revealed a wide divergence of views. Great significance is attached to this fact as a result of the action of the Allies in amending President Wilson's famous fourteen points so as to permit them to enter the Peace Conference without having been committed to any definition of "Freedom of the Seas."

Following are the answers to the request for the British view of what the definition should be:

## ADMIRAL LORD BEREFOURD.

"The British fleet insured victory. The League of Nations is no counterpoise to command of the seas by the British fleet. The British empire will never consent to give up command of the seas, but would gladly welcome the assistance of English-speaking nations to retain that command."

## H. G. WELLS.

"Freedom of the seas means a guarantee by the League of Nations of transit without discrimination in freight and fares over all seas and international land route, free of discrimination and extortions by particular nations or combines of private shipowners and transit companies."

## G. BERNARD SHAW.

"Freedom of the seas means that if you seize contraband of war you pay for it and for all incidental damage; also that all nations have internationally guaranteed the right of way over all indispensable marine highways."

## LIEUT. COL. REPPINGTON.

"I have not the slightest idea what freedom of the seas means, nor have I met any one who can tell me."

## A. H. POLLEN.

"Non-combatant trading with Germany has cost Europe and America millions of lives and fifty billion dollars. If this is freedom of the seas, it has been a costly luxury."

## ARCHIBALD HURD.

"Naval Critic of the Daily Telegraph. 'In war, as recent events have shown, effective freedom of the seas, as of the world, demands maintenance of ancient sea rights which have repeatedly proved to be the salvation of civilization. Abolition of the blockade and of contraband would reduce the value of seapower, 75 per cent. The sea controls the land, and so-called freedom of the seas means military autocracy by land.'"

## A. G. GARDINER.

Editor of the Daily News. "Freedom of the seas is universal

and unqualified in peace time. In case of dispute between nations, if one nation rejects arbitration and the decision of the League of Nations, and declares war, it will be denied the use of the seas, while its opponent will have such sea safeguarded."

## COL. J. C. WEDGWOOD, M. P.

"Freedom of the seas means abolition of the right of capture or destruction of private property at sea in war time and no discrimination at ports between the different flags in peace time. Submarines alter the old situation, but always as a Liberal, I support President Wilson."

## RALPH D. BLUMENFELD.

Editor of the Daily Express. "Until you abolish war there can be no such thing as freedom of the seas."

## JOHN ST. LOE STRACHEY.

Editor of the Spectator. "Freedom of the seas means a sea freed from vigilant policing, from thieves and murderers. An example is the action by the United States in the Civil War, and by Great Britain plus America now. The German version of freedom of the seas means sinking without trace."

## GEN. F. B. MAURICE.

Former British Director of Operations. "The difficulty in freedom of the seas lies in its application to war. It has been suggested that it will be impossible to legislate satisfactorily for war, in which the unexpected is the rule. Methods of warfare change rapidly with mechanical developments. Therefore, no Government is willing to bind its country indefinitely."

## CHEER EVEN IN DEATH HOUSE

Chicken Dinner Served to Seventeen Condemned Men.

Seventeen-year-old Paul Chapman, Joseph Cohen, Jacob Cohen and fourteen others facing execution in Sing Sing participated in the Thanksgiving cheer provided at the prison for 1,100 convicts.

Chicken dinner was served to all, including death-house occupants. Others enjoyed a vaudeville entertainment and moving pictures. For the condemned cells there was only phonograph music. Chapman saw the Rev. Anthony N. Petersen, chaplain, Thanksgiving Eve. Mr. Petersen told him he had fairly good prospects of obtaining commutation of sentence. Chapman then seemed more hopeful.
